## John Muir

John Muir moved to the United States from Scotland in 1849. When John arrived in the United States, he worked with wood. At his job one day, John hurt his eyes. He had to stop and rest for many months.

When John got better, he decided to change his life. The wide world under the big open sky called to him. He traveled and walked across many parts of the United States and came to love the wild places he visited. In California, there were soaring mountains and green valleys. John wrote about what he saw. His words painted wonderful pictures of mountains, rivers, and plants. Readers learned about their beauty from John.

The natural beauty of the United States was important to John. He spent the rest of his life working to keep wild places safe. Many of these places are now parks. The parks have thousands of visitors a year. John loved this wild country. His life and writings teach us to love it, too.

**Directions:** Read the song lyrics. Then answer the questions about the song.

I sing about America,  
Her land and shining sea,  
Her proud, purple mountains,  
Her people, brave and free!

I help to make America,  
A place that's free of fears,  
A land where we can all feel safe,  
For all the coming years.

I work to build America,  
With others true and strong,  
By helping when it's needed,  
And doing right, not wrong.

I show I love America,  
With every passing day,  
By being kind and thoughtful,  
In all I do and say.
