

## **K-2 Art**

If you chose not to submit these assignments via Google Classroom, please email, or text, them to me: **[dhelvie@finleystd.org](mailto:dhelvie@finleystd.org)**

### **May 26-29**

#### **Project 1: Faces Everywhere**

Many of us have looked at things and realized that we see a face; whether it be looking at a car, or the sky, we have seen faces all around us.

This phenomenon is called pareidolia and is what happens when you are looking at any random thing, and your brain interprets that thing as something that is not really there.

Clouds that look like animals or shapes. A towel hanger that looks like an octopus trying to pick a fight with you. A face in your buttered toast!

Wherever you are, see if you can find random faces made out of ordinary things. Take a photo! The sillier, the better!

Your challenge this week is to take photos of five different things that you find a face in and submit those images.

**\*\*Added Challenge\*\*** The things you take photos of, draw them, face and body, and add a background. You are creating a character out of the objects you photographed.

#### **Project 2: Art of Music**

Music and Art often work hand-in-hand.

1. Pick a song and listen to it.

2. Make an artwork while you're listening that is a response to that song.

Pay attention to the mood of the song and think about how to turn that sound into a drawing. (think of what colors mean for certain emotions)

### **June 1-5**

#### **Project 1: Found Object Art**

Students your job is to find at least three objects and create an image using those objects out of those objects. Look through the slides, and also watch the videos that are on here. Upload images of your projects to projects to your assignment.

### **Project 2: Toy Photography**

Students, your project is to create three different images using your toys. With your toys that you choose, create a story for your photograph. Look at the PDF, the link, and watch the video to get ideas. Upload your image and submit it for this assignments

## **June 8-12**

### **Project 1: Colorful Tracing**

Find an object and trace around it over and over, filling almost the whole paper. Don't forget to overlap some of the tracings. Once you finish tracing your object, color each area a different color.

**\*\*challenge\*\*** color the areas using a color scheme

-primary

-secondary

-tertiary

-complementary

### **Project 2: Show Me You**

Draw yourself. You can look in the mirror and draw yourself, or draw what you think you look like. Remember to think of where your eyes, nose, and mouth are located on your face.

Please submit this drawing to me via Google Classroom or email [dhelvie@finleysd.org](mailto:dhelvie@finleysd.org)
